FIRST ANNUAL SCHOOL FAIR OF MONITOR DISTRICT NEXT FRIDAY. SPLENDID PRIZE LIST

In spite of adverse conditions, keen interest being taken by pupils. Many prizes offered

Next Friday will witness the celebration of the First School Fair to be held in Monitor. Given fair weather, the Fair promises to be a huge success from every standpoint. As will be seen from the accompanying copy of the prize list, a splendid number of prizes are being offered, and the classes also are of sufficient range, so as to give every pupil an equal chance of winning a prize. In order that every one may have an idea of work that this Fair covers, we are publishing the complete prize list—here it is.

Rules Of The Fair

1. Competition is open to the pupils of all school districts in which seeds have been distributed.
2. Vegetable and flower exhibits must be from seeds distributed.
3. Pupils who receive seeds must exhibit samples of the products.
4. No entry fee will be charged for any exhibit.
5. All exhibits excepting live stock and grain, must be the work or property of the exhibitor. Live stock and grain may be the property of the exhibitor's parents or guardian.
6. Exhibits of live stock must have been cared for by the exhibitor for three months preceding the date of the Fair.
7. In live stock classes awards will be made on a basis of 50 per cent. for conformation and quality and 50 per cent. for evidence of care and attention.
8. Each school must arrange to bring its own exhibit to the Fair.
9. No exhibitor may make more than one entry in any section.
10. In schools of more than one room each room shall count as a school.
11. All exhibits must be in place by 10:30 a.m. on the day of the Fair.

Women's New Status

Ratification by the legislature of Tennessee of the amendment to the constitution of the United States extending equal suffrage to women was noteworthy in that it made the 36th State to approve of the amendment, and consequently made possible the promulgation of the new constitutional change as binding upon the whole nation. As a result between 15,000,000 and 20,000,000 women will be added to the list of qualified voters in the presidential elections next November. In other words, there will be in the neighborhood of 40,000,000 eligible voters in the United States, a number unequalled in any other country.

What effect this large enfranchisement of new voters will have on the fortunes of the Republican and Democratic parties it is difficult to say. The probability is that in this first election the women will, as a general rule, vote the same ticket as their men folks, but as the years go by and women develop an aptitude for public affairs and a distinct political consciousness, it is altogether likely that marked changes will be effected in party policies and methods.

The innovation will be for the good of the country and the world, because, naturally, the woes of the people of other parts of the world will appeal more strongly to the women than they appear to have done to the big financial and commercial interests of the United States dominated by men judged by the treatment accorded the peace treaty

and the League of Nations. There will probably be less selfishness and more humanitarian feelings in American politics of the future.

The enfranchisement of millions of women will also, in all probability, have the effect of definitely settling the much vexed question of prohibition and assure the retention of prohibition of the liquor traffic as a permanent policy of the United States.

In the extension of full citizenship rights to women, Canada led the United States, first the provinces and then the Dominion taking this advanced and enlightened action. In this country, too, this undoubtedly means the deathknell of the liquor traffic. In other respects the effect of the entry of women into politics is distinctly noticeable. Greater attention is being paid by governments to the problems of health and along many lines making for human betterment in moral and social conditions, and, in particular, in the direction of legislation establishing and protecting the rights of women, working girls and children generally.

So, too, the presence of women in the legislatures of Manitoba, Saskatchewan and British Columbia, and almost certainly in the next Dominion parliament, as well as upon municipal councils and school boards, is bringing new angles to the consideration of public matters of far-reaching importance. To an increasing extent in the future, business in the government and the practical side of administration will be softened by attention being devoted to more sentimental and aesthetical considerations.

As a consequence of the participation of women in public affairs there must come, as there has come from their general entry into business, a greater self-reliance on the part of the women themselves. They will need it, because, as they increasingly engage in occupations formerly regarded as the exclusive prerogative of the men, it is inevitable that the old deference paid by men to women will become less in evidence. This tendency, regrettable as it is, is already noticeable in small matter, as, for instance, the growing reluctance of men to give up their seats to women in crowded cars or other places of assembly, or to giving them precedence in a crowd. Women will miss these little old-time courtesies and it is a pity that they should pass, as already there is too little gentleness and courtesy in this matter-of-fact, workaday world. But it is a price that, apparently, must be paid in this new age of absolute equality between men and women.

It is to be hoped, however, that mothers will still inculcate in their sons a high regard and respect for, and gentleness and courtesy towards, women, and that all men will strive to maintain such an attitude towards women even in the stress, strife and turmoil of business and political life, and that the women will endeavor to be worthy of such regard from the men, so that, with all the undoubted advantages of this new era the world may not lose all the old chivalry of the past.

Mineral Wealth of Quebec

Discoveries in North Country Are Becoming Richer

H. L. F. Blake, representing several English syndicates, who has been exploring Chibougamou and Northern Quebec with a party arrived recently in Montreal on his way down the North Shore to make further explorations in Ungava. Mr. Blake reports that the mineral discoveries in the north are becoming richer and richer on each occasion he visits the interior of the country, and predicts that the day is not far distant when the large steel interests will look to Northern Quebec for their raw material. The enormous water powers will supplant coal in the production of iron and steel and will make Quebec one of the richest parts of the Dominion, if not of all America, from the mineral point of view.

PURITY - QUALITY - ECONOMY

With the increased cost of labor and materials due to war conditions, it is not reasonable to suppose that a really first class baking powder can be made and sold at the old prices. Rather than sacrifice the quality of

we found it necessary to make slight increases in price during the war period. Even though Magic Baking Powder may cost a few cents more than the ordinary kinds it is still by far the most economical baking powder on the market to-day when purity, strength and leavening qualities are taken into consideration.

The Editors**Lament**

Consider the editor. He weareth purple and fine linen. His abode is among the mansions of the rich. His wife hath her limousine and her first born sporteth a racing car that can hit her up in 50 flat.

Lo!! All the people breaketh their necks to hand him money. A child is born unto the wife of a merchant in the bazaar. The physician getteth 10 golden plunks. The editor writeth a stick and a half and telleth the multitude that the child tippeth the beam at nine pounds. Yea he lieth even as a centurion. And the proud father giveth him a punk cigar.

Behold the young one groweth up and graduateth. And the editor putteth into his paper a swell notice. Yea a peach of a notice. He telleth of the wisdom of the young woman and of her exceeding comeliness. Like unto the roses of Sharon is she and her gown is played up to beat the band. And the dressmaker getteth two score and four iron men. And the editor gets a note of thanks from the S. G. G.

The daughter goeth on a journey. And the editor throweth himself on the story of the farewell party. It runneth a column solid. And the fair one remembereth him from afar with a picture post card that costeth six for a jitney.

Behold, she returneth and the youth of the city fall down and worship. She picketh one and

to she picketh a lemon. But the editor calleth him one of our most promising young men and getteth away with it. And they send unto him a bid to the wedding feast and behold the bids are fashioned by Montgomery Hawick, in a farcity.

Flowery and long is the wedding notice which the editor printeth. The minister getteth 10 bones. The groom standeth the editor off for a 12 month subscription.

All flesh is grass and in time the wife is gathered to the soil. The minister getteth his bit. The editor printeth a death notice, two columns of obituary three lodge notices, and a cubit of poetry and a card of thanks. And he forgetteth to read proof on the head, and the darned thing cometh out "Gone to Her Last Roasting Place"

And all that are akin to the deceased jumpeth on the editor with exceeding great jumps. And pulleth out their ads and cancelleth their subscriptions, and then swing their hammer unto the third and fourth generation.

Yea and verily, also furthermore, ye Ed. goeth to the telephone office to phone, and behold the line is M.C. or W.H. or Q.E.D. and the party at the other end getteth sore and cancelleth his order for printing. Likewise and behold the Ed. wendeth his weary way to the telegraph office to send a wire, and after cooling his heels for ten minutes by the C. P. CHAPTER X.

"Jno. T. Smythe; Seller of guns, ammunition, and provisions; Buyer of furs and game."

This sign creaked and complained against a dingy little building of unplanned boards. It was gray and forsaken-looking, being one of about 200 others just like it, of gloomy and sullen aspect. This was Bridgetown. On its one side, stretching eastward, lay a drag-gray fallow of partly cleared land. Here and there stood a clump of trees; here and there a solitary stub, as-scarred or fire-blackened. In these trees Nature seemed to be voicing her resentment of the ravishes of man. In this, the close of an October day, the little town seemed as dead as the slain beauties that had once reigned in her place.

Westward, beginning with a stubble of second-growth beeches and maples, the land rolled and undulated. At each step southward and westward taking on a more picturesque appearance of natural grandeur. For ten miles inland lay the scars that civilization had left upon the forest. Then the marks were seen no more. A yellow ridge of golden-ochre marked the boundary line, and behind this lay Bushwhackers' Place.

Mr. Smythe, the storekeeper, stood gazing out toward the dirty pane at the dreary panorama, occasionally lifting his light-blue eyes heavenward. A big storm-cloud was rolling in above the forest from the west.

"Watson ought to be back by now," he mused for the twentieth time in half an hour. "God forgive me if I did wrong in letting him take gray Fan. He's three stone too heavy for the mare."

He turned from the window and glanced toward the door. A heavy step was approaching. From without came a sonorous voice, calling and scolding a pack of hounds that now came scrambling and barking up the deserted street.

"It's Colonel Hallibut," whispered Smythe in dismay. "Why does he want to show up just at this time of all times? Watson might have known that he would put in his appearance just when he wasn't wanted. All right sir. Yes, sir, I'll open for you, Colonel. Come in, sir; come in."

A big form filled the doorway and a big voice spoke.

"Nice storekeeper you are, Smythe, to have your door locked this way. What's the matter with you, anyway? Let the dogs come in; poor chaps, they're tired."

"They don't take to me, your hounds don't, Colonel," ventured the storekeeper. "That brindle fellow took hold of my leg the last time I let 'em in. However, there you are. Nice doggies, come in and make your selves at home."

"Finest pack in Ontario; finest pack in the whole Dominion, I say—those fellows," laughed Hallibut, jolting, in the semi-darkness, against a pile of furs and topping it over on the floor.

Immediately three of the tired dogs stretched themselves on the soft bed, as though it had been arranged for them, and went to sleep. Hallibut threw himself into a chair by the fireplace and laughed at the other's dismay.

"Better not try to disturb 'em, Smythe," he cautioned. "They're ugly, I tell you. Get them something to eat will you? And say, Smythe, just have that nigger of yours get me up a snack, too, like a good fellow; I've been riding since morning."

"St. Thomas?" asked Mr. Smythe, shifting his light eyes to the Colonel's face and patting his thin hair

Breathe Deeply Then Listen For That Bronchial Wheeze

Dangerous to Neglect Troubles In the Chest, Throat or Nose at This Season

Rough, wheezy breathing means danger ahead. Every day you defer treatment makes it harder to cure. Don't delay. Bronchial and lung troubles are all too frequent. Start today with "Catharhazone," breathe in its pure balsamic vapor. Let its healing fumes do for you what stomach medicine never can. Nothing so certain as a Catharhazone inhaler to strengthen a weak throat, to rid you of Bronchitis, to drive out catarrh, coughs and colds. Use Catharhazone to prevent, to cure your winter ills. Physicians endorse it, hospitals use it. Thousands swear by it. Two months' treatment, large size \$1.00; smaller sizes 25 cents and 50 cents, all dealers or The Catharhazone Co., Kingston, Canada.

with his long fingers.

"It doesn't matter," returned the other. "Where is Watson?"

"I'm sorry to say," commenced Smythe; but the Colonel turned upon him, his black brows knit in a frown.

"You needn't finish. I know."

He arose stiffly and walked around behind the counter.

"Give me the key, Smythe," he demanded, holding out his hand.

The Colonel took the key and unlocked a small oak cupboard, extracting from it a bottle of red liquor.

"I'm afraid if Watson persists in drinking I'll have to find a new agent," he said, walking to the door and throwing the bottle across the street.

"Seems he can't resist the drink, Colonel," stammered the groceryman.

His long face had turned to a yellow-white, though much of it was hid by the advancing night-shadows from the black orbs of the ponderous man before him.

"I'll go and have you a meal prepared. Make yourself comfortable, Colonel Hallibut."

Not until the door of the inner room closed upon him did the soul of Smythe vent itself in whispered imprecations. He clenched his claw-like fists and shook them fiercely. He let forth a tirade of murmured oaths that would have made a Newfoundland fisherman gasp in wonder. Finally, he turned and, prying through the gloom, sought out the recumbent figure of his colored man-of-all-work, who was peacefully sleeping on a cot of willow-boughs. Smythe crept forward and bent above the sleeper. A prolonged snore met him. He reached forward, and, feeling down the wide bridge of the negro's nose until he got the desired hold, he deliberately gave that member such a violent twist that Sam came out of Magnolia-land to this trying sphere with a suppressed snort.

"Yes, Massar," he cried, struggling up.

"Light the candles and put some bacon to fry," commanded Smythe. "Colonel Hallibut is here."

"Lawd save us!" groaned the colored man. "Where am dem candles, I wonder? Hab he got de dorgs, sah?" shading a match with his hands so that his flicking light showed the apprehension in his white eyeballs.

"Some of them, yes. Don't stand there shaking. Get his supper ready, then go down to the Triple Elms and wait for Watson. They musn't meet until I've seen Watson. You tell him the Colonel is here and to lie low until he leaves."

Sam had lit the candle and now stood tonguing his thick lips.

"It's gwine to be a bad night, sah, an' dey do say a pack of wolves—"

Smythe lifted his hand.

"Hurry up! I hear him tramping out there. What did I tell you?"

The heavy voice of the Colonel was heard requesting that lights be brought and the fire be made more cheerful.

"You'd better take a rifle with you," said the storekeeper, turning to the negro, his hand on the latch.

Sam waited until the door had been closed behind his master. Then he gave way to silent mirth.

"Massar Smiff don't want Watson t' meet de Kennel. An' de Kennel a-waitin' out dar fer Massar Watson ter pop in any time. He! he! he! he!"

He quickly prepared the visitor's meal, and, lifting the rifle from its peg, slipped out by the back door.

After he had eaten his supper Hallibut pushed his chair back from the table and felt for his pipe.

"When was Watson over to Bushwhacker's Place last?" he asked, his eyes on Smythe's face.

"Let me see—why, I think it was on Tuesday, sir. He said you asked him to use his influence with those misguided people who prefer savagery to civilization."

"Your friend has a vivid imagination," remarked Hallibut. "He came to see me and told me a lot of nice things the Bushwhackers intended doing to me if I didn't mind my own business. Knowing Watson to be an even bigger prevaricator than you are, I believed half what he said and let the rest go by me. However, I know the Bushwhackers haven't any use for me. I don't know why. Guess they think I'd do anything I set out to do—and they're not far wrong. He suggested that I let you and him handle this deal for me, and after consideration I thought maybe I had better. I'm too short-tempered to ever use diplomacy, and as I'm no hypocrite, I couldn't soft soap the Bushwhackers into coming my way of thinking. I'm willing to pay them whatever the timber is worth. It ought to be a good thing for them, and I'm inclined to think they'll be sensible and sell the timber. I only want the biggest of the hard stuff."

When Children Wage War

Saskatchewan school children have since spring destroyed more than 2,000 gophers and saved probably a million bushels of grain. This is the result of an energetic campaign instituted and carried out by the Saskatchewan provincial government with the co-operation of the municipalities and individual school districts in the province.

Canada is second to the United States in motor car production.

Farm Sells for High Price

A 480-acre farm two miles east of Carman, McDonald district, Manitoba, has recently been sold for \$60,000 or \$125 per acre. There are some good buildings on the farm. The price is one of the highest that has been paid in that district and indicates the upward trend in the value of farm lands in Western Canada.

There are about 124,000,000 acres of standing pine in the lumber sections of the southern states.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all. Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nineteen years. Now made in Canada. Handy tin boxes containing 12 tablets cost but a few cents. Druggists also sell larger "Bayer" packages.

There is only one Aspirin—"Bayer"—You must say "Bayer" Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocarbolic Acid of Salicylic Acid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

BOLSHEVIKS LOSING GROUND

Repeated Efforts to Encircle Lemberg Have Resulted in Failure

Warsaw. — Further gains on the northern front are reported in the Polish official communication which says the Polish troops occupied Augustowo, northeast of Grodno, where they were enthusiastically received by the population. Lithuanian detachments encountered by the Poles have been most friendly.

The Bolsheviks are continuing to give way before Polish pressure in the Bialystok sector, say the communications. The Poles have recovered Narow. The Russians are preparing to make serious resistance in the region of Malanarwa river.

Quiet prevails in the Brest-Litovsk sector. The Poles are resisting repeated efforts to encircle Lemberg. Prabowice, which had been temporarily evacuated by the Poles has been regained in a counter-attack.

Bolshevik attacks upon Zaeworze, east of Lemberg, have been repulsed with heavy losses. General Budenny's forces have been driven out of the region of Zydycow and Chodorow, south of Lemberg.

London.—The Poles have taken Suwalki, about 40 miles northwest of Grodno, it is announced by Lithuanian representatives here. A Polish division is reported to be advancing on Seiny, east of Suwalki.

Increased Output Result of Smoking

London.—An allowance of time for smoking at Dick Kerr's works at Preston has been so successful that the directors have decided to develop the experiment. Three months ago the men were granted permission to smoke for fifteen minutes each morning and afternoon. The management have now extended the privilege from 9 to 1.30 and from 3 to 4.30.

It is stated that the granting of smoking time has resulted in increased output.

Grain Movement Starts

Winnipeg.—One million bushels of new wheat have already passed through Winnipeg, according to the estimate of a prominent grain exchange official.

A large part of this wheat grades No. 1 Northern, and the percentage is said to be higher than in previous years.

Need New Election Form

Ottawa.—With practically all the machinery ready for the taking of votes under the Canadian Temperance Act, and in the by-elections, it has been found that a large percentage of the forms used in former elections cannot be utilized, in any way under the new Election Act.

Faint and Dizzy Spells.

Weakness and Shortness of Breath.

You can generally tell when the heart is affected by the faint and dizzy spells, the shortness of breath, palpitation, throbbing, irregular beating, smothering sensations, weak, sinking, all-gone feeling, choking sensation, etc.

Many men and women become rundown and worn out when otherwise they could be strong and healthy. If they would only pay some attention to the first sign of heart weakness.

No remedy will do so much to make the heart regain strength and vigor, regulate its beat and restore it to a healthy and normal condition as Milburn's Heart and Nerve Pills. Mrs. C. A. S. Drake, Paris, Ont., writes:—"I have used on towards the second box of Milburn's Heart and Nerve Pills and find they have done me good. I had those fainting, dizzy spells, once in a while, and also weakness and shortness of breath, and would become so choked up at times I could hardly sleep without sitting up in bed. When walking too fast I would have to stop and try to catch my breath. I feel a lot better since I have used your pills and know that they have helped me wonderfully as I have improved very much."

Journalists Dine On Buffalo Meat

Something New Was on Bill of Fare For Press Delegates

Jasper, Alta.—Viscount Burnham, in cap and apron, carved a great haunch of buffalo for the luncheon given the Imperial press delegates at Jasper National Park, on the shores of Lake Bowmont. It was altogether a holiday party which gathered under the genial climate of northern Alberta. The weather could not have been improved.

Sir Emsley Carr, publisher of the News of the World, in acknowledging the kindness of all the park authorities, said it was a distinction that only Canada could provide.

The wonders of Maligne Mountain were pointed out in the afternoon, and the visitors eagerly returned to Lake Beauvert to bask in the sunshine and color of the picturesque scene of the water in Jasper Lake. The party entrained in the early evening for the next stopping point.

U.S. Trade Increasing

Notwithstanding Technical State of War Exists, Trade With Germany Grows

Washington.—Although a technical state of war still exists between the United States and Germany and Austria, trade with those countries is rapidly increasing. Reports of the department of commerce show that exports to Germany totalled \$202,176,079 during the 12 months ended last June 30, as compared with \$8,818,882 during the corresponding 12 months the year before. Imports from Germany jumped from \$944,981 in 1919 to \$4,085,975 during the year ending July 1.

Exports to Austria as distinguished from Austria-Hungary were valued at \$11,847,127, as compared with nothing the year before. Imports from that country from the same period were valued at \$587,108.

Trade with Russia in Europe also showed a substantial increase in the past year, exports being valued at \$34,639,901, as compared with \$11,000,000 the year before. Imports from that country, however, were valued at only \$2,443,288.

Bush Fires Destroy Homes

Sixteen Farmers in Manitoba Suffer Heavy Loss

Winnipeg.—Sixteen farmers in the Ste. Rose Du Lac district have lost their homes, barns, implements and crops in bush fires that have been laying waste the area in the last few days, according to an official report by provincial authorities. Thousands of acres of haylands, and hundreds of tons of cut hay have been destroyed in the northern part of the province.

The danger in all sections is at an end for the present, however, on account of the rainfall, which was fairly general over Manitoba.

Tartars In Revolt Against Bolsheviks. Baku.—Revolutionary outbreaks against the Bolsheviks are reported among the Tartars. The disturbances were caused by the increased cost of living, which is now twenty times greater than when the Soviet government was instituted.

Training for Air Force

Ottawa.—The regulations governing the training operations of the Canadian Air Force are expected to be approved by cabinet-council this week, after which training will begin in earnest at Camp Borden and other air force training centres.

Civic Housing Scheme

Winnipeg.—The Winnipeg city council has authorized a bond issue of \$300,000 to be used for raising sufficient money to build a further one hundred homes under the civic housing scheme. The bonds, which are for a period of 20 years will bear interest at the rate of six percent.

MILLIONS ARE INVOLVED IN BIG LAW SUIT

ACTION TAKEN BY STEEL CO.

Claim Payment for Rails Rolled Under Government's Orders

Ottawa.—A suit involving several million dollars, the point at issue being the value of steel rails which the Dominion government, under the authority of the war measures act, compelled the Dominion Steel Company to roll during the war period for the use of Canadian railways, will be heard by the exchequer court at a sitting which opens on September seven.

The amount involved is \$8,727,617, less cash already advanced to the extent of \$5,500,000. This makes the actual amount in dispute upwards of three and one-quarter millions with interest.

The amount of rails rolled under the government's order was something in excess of 100,000 tons, for which the company seeks payment at the rate of \$75 per ton. As the government considered the price too high provision was made by an order in council for a reference of the dispute to the exchequer court.

The rails were delivered under the government order to the Grand Trunk Pacific and other roads. These railways have been made parties to the proceedings before the exchequer court, the purpose being to have the court declare that the railways must pay for the rails received the amount the court finds to be fair and reasonable.

Establish Steel Plant

Considering Advisability of Manufacturing Commodity in B. C.

Victoria.—A rolling mill and blast furnace for the manufacture of steel it is expected, will be established in this province as soon as the necessary market for the product of such an undertaking has been assured, according to Major Martyn, industrial commissioner for the province, who, with James H. McVety and Nichol Thompson, of the advisory council of the British Columbia department of industries, has left for Chicago and San Francisco in connection with the matter.

Trout for Jasper Park

Ottawa.—The waters of the Jasper Dominion park have again been stocked from the hatchery at Banff, Alta., operated by the fisheries branch, department of marine and fisheries. Rainbow trout have been planted in Patricia Lake to the number of 10,000; Hiberina lake, 5,000, and Marjorie Lake 5,000 salmon trout were also planted in Pyramid Lake to the number of 24,300.

Sugar Stocks Exhausted

Montreal Refiners' Price of \$22.80 Hundredweight Likely To Obtain

Montreal.—While sugar refiners announced last week that the price of sugar would be dropped two cents a pound all around, making the quotations for the best granulated \$22.80 a hundred net, local brokers who have had heavy stocks on hand have been offering this grade around 18 cents a pound, and there has been more fluctuation in the market between this figure and the twenty-two cent level.

The refiners state that the broker stocks are now practically exhausted and the expectation is that the price will stabilize at \$22.80 a hundred lbs. for the best grade of sugar, with steadiness in the other grades.

PEACE TALK AT MINSK HAS BEEN POSTPONED

Delegates Are Planning, However, To Resume Negotiations Within Week

Warsaw.—Peace negotiations between the Polish and Russian delegates at Minsk have been interrupted, according to a wireless despatch just received here. Most of the Polish delegates have left Minsk for Brest-Litovsk, while the Bolshevik representatives have gone to Moscow, both sides are planning to resume the conference within a week, probably at Riga.

Letivia has agreed to permit Poland and Soviet Russia to transfer the Minsk peace conference to Riga. This was done on the request of the Poles.

Fine Buildings for Fine Farms

YOU have modern machinery, modern equipment, a real up-to-date modern farm—BUT—how about your buildings? Are they as modern as your equipment?

Do you house that expensive machinery—or leave it to the mercy of rains, sun, wind and rust?

How about your stock? Do you take a chance and house them in unsanitary, dark, damp barns that decrease their efficiency and production?

How about your good wife and yourself? Are you any less important than any or all of these?

Fine Buildings Make Fine Farms

The time was never more opportune to realize the long-agoed improvement—new buildings, additions, repairs—A NEW HOME. Now on the threshold of a big crop with wheat at a high price, with the money on the participation certificates coming in—surely the time was never better set when the hard-earned hard-fought-for comforts of a real home can be realized. Your farm should have buildings worthy of its owner and its production. Make those dreams of your good wife a reality, put more comfort and a home-like atmosphere to the farm by building now.

Pulp and Paper-Making Plant Will
Probably be Established
At Prince George

Announcement is made by Hon. T. D. Patullo, head of the timber department of British Columbia, that a great pulp and paper-making plant will probably be established at Prince George.

Immense stands of spruce and balsam near that city have been investigated this summer by representatives of eastern concerns who may erect a large plant.

As a result of the shortage of newsprint and the resultant increase in price, the pulp and paper industry is receiving a great impetus. The enormous stretches of big timber throughout British Columbia offer a great inducement to the paper manufacturers and several plants are proposed in different parts of the province.

Could Not Sleep

Mr. Earnest Clark, Police Officer, 338 King St., Kingston, Ont., writes:

"For three years I suffered from nervousness and sleeplessness. I believe my condition was brought about by overwork. I had frequent headaches, neuralgic pains and twitching of nerves and muscles. I had indigestion, was short of breath and easily tired. I commenced a treatment of Dr. Chase's Nerve Food, and seven boxes of this medicine cured me of all my symptoms. I am now feeling one hundred per cent. better than I was, and have to thank Dr. Chase's Nerve Food for the good health I am now enjoying."

New Lumber Industry Planned

Sash and Door Factory for Mission, British Columbia

Construction of a \$135,000 sash and door factory is being planned at Mission, British Columbia, by the Canadian Western Door Company, which has recently been organized with a capitalization of a quarter of a million dollars, according to a report from that city.

The company plans to establish one of the most modern and up-to-date sash and door factories on the Pacific Coast, with a capacity to start with of 1,000 doors per day (or approximately 600 doors and 500 window sashes)—a carload of finished product a day. The plant when completed will employ about 75 people, with a payroll amounting approximately to \$10,000 per month.

Girls! Women! Do Your Looks Satisfy You?

Is your color fresh and rosy?
Does the glow of health shine out in your cheeks?

Do your eyes glisten with health, or are they dull, dark circled and tired?

Alas—your bloodless face indicates trouble. Your watery blood menaces your health. What you need is the toning, cleansing assistance of Dr. Hamilton's Pills. They will clean out the overplus of bile that makes your skin so murky—they will put new life into the stomach, brace up digestion and make you eat sufficient food to get a blood supply ahead.

Good blood always means more strength and vigor—that's why Dr. Hamilton's Pills are so successful in building up weak, thin folks.

You'll feel better at once, your looks will improve and that half dead, lazy feeling will depart, because Dr. Hamilton's Pills enliven and fortify every ailing organ in your body.

Ask your friends, your neighbors—most anyone can tell you of the enormous good done by Dr. Hamilton's Pills, but beware of any substitute.

Seed Rye Exports

Calgary grain men state that seed rye may be exported to the United States without being subject to any restrictions or regulations other than those ordinarily met with in the customs department. Seed rye entering the States is not subject to duty. In order to ship the product across the line, it is necessary to procure "foreign" cars, as American rolling stock in Canada is designated by the grain dealers, and once loaded on these the grain may be sent to any point under the same conditions as a shipment in Canada is made.

Wheat in Eighty Days

Importance of Perfecting the Early
Maturing Varieties

Captain Howell of Grande Prairie started cutting Ruby wheat on August 11th, with prospects that the yield will be heavy and of a high grade. It took but eighty days from time of sowing for it to ripen. One hundred days has been the time hitherto accepted as necessary for the process, and it is impossible to exaggerate the importance of the work of Dr. Saunders in perfecting the early maturing varieties. Dean Howes, of the university faculty of agriculture, used the success of Saunders' experiments very effectively as an illustration of the importance of giving the most liberal facilities for agricultural experimental work. Twenty days in most Western Canadian crop seasons makes a very great difference. The saving of it means the extension of a long distance to the north of the area in which wheat growing may be carried on with a reasonable degree of safety.—Edmonton Journal.

Recruit—"Shall I mark time with my feet, sir?"
Lieutenant (sarcastically).—"My dear fellow, did you ever hear of marking time with your hands?"
Recruit—"Yes, sir; clocks do it!"

It sometimes happens that faith, hope and charity fill the stage to the exclusion of gratitude.

A MOTHER'S TRIALS

Care of Home and Children Often
Causes a Breakdown

The woman at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and severe. Her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed through weakness, headaches, backaches and nervousness. Too many women have grown to accept these visitations as part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and relief at hand. When well, it is the woman's good blood that keeps her well; when ill she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one way to get this good blood so necessary to perfect health, and that is through the use of Dr. Williams' Pink Pills. These pills make new blood, and through their use thousands of weak, ailing wives and mothers have been made bright, cheerful and strong. If you are ailing, easily tired or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50c a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

DAD! YOUR HAIR IS FALLING FAST!

"Danderine" Will Check
That Ugly Dandruff and
Stop Hair Coming Out.

To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug or toilet counter for a few cents, pour a little in your hand and rub well into the scalp. After several applications all dandruff usually goes and hair stops coming out. Every hair in your head soon shows new life, vigor, brightness, thickness and more color.

Not So Bad

The "nervy" young officer sat down at a table in the vegetarian restaurant. "Crushed out, sir?" asked the waitress, handing him the menu of the day.

"No, no; shell-shock," he replied.—London Tit-Bits.

A Household Medicine.—They that are acquainted with the sterling properties of Dr. Thomas' Eclectic Oil in the treatment of many ailments would not be without it in the house. It is truly a household medicine and as it is effective in dealing with many ordinary complaints it is cheaper than a doctor. So, keep it at hand, as the call for it may come most unexpectedly.

Local Happenings

Threshing in the district is progressing very favorably, now that the wet spell seems to have spent itself. From reports received the average yield of the district, at present, appears to be around 20 bushels to the acre. Roy Cramer averaged 22 bushels to the acre. There seems to be no shortage of help amongst the threshing crews.

Wonder what has become of the Tennis enthusiasts one heard so much about at the beginning of the season. Last Monday only a few desultory games were played. Mrs. Ehlinger, Mrs. Warner, Mrs. Cameron, Messrs. Waters, Davidge, Warner, Stone and Hayes appeared to be the only ones who could "spare the time" to play. And on a holiday, too.

The first ear of wheat was shipped from here last Wednesday. The Alta. Pacific Elevator was the shipper, per M. A. Van Horn.

Although the date is not definitely set, we understand that the Teachers' Convention will be held in Monitor, commencing on October 7th. A large number of Teachers, it is expected, will take part in the Convention.

Mr. Clarence Purdy returned to his home on Saturday last. He apparently can't get along away from the Band.

We have it on good authority that some time in October the local school is going to stage a Basket Social and Dance in order that funds may be raised to purchase several things for the school. This is a rattling good idea, and worth of the support of every citizen of the district who has the welfare of the school at heart. Further particulars will be published later.

Art Johnston is going to have a big sale early next month. 40 head of horses will be offered for auction. Anyone desiring a good team, should attend this sale. Roy Cramer will be auctioneer. Watch for the bills.
